

Step1:

step2:

```
1 CREATE TABLE `fullstack`.`student` (  
2   `stu_id` INT NOT NULL,  
3   `stu_name` VARCHAR(45) NOT NULL,  
4   `email` VARCHAR(45) NULL,  
5   `age` VARCHAR(45) NOT NULL,  
6   `city` VARCHAR(45) NULL,  
7   `adm_date` DATE NOT NULL,  
8   `mentor_id` INT NULL,  
9   PRIMARY KEY (`stu_id`));  
10
```

Step3:

Step4:

[illegible]

Step5:

The screenshot shows a database application interface. At the top, there are tabs for 'fullstack - Schema', 'student - Table', 'student', and 'student'. The 'student' tab is active. Below the tabs is a toolbar with various icons for editing and viewing data. The main area is a SQL editor showing the following query:

```
1  SELECT
2      stu_id,
3      stu_name,
4      (SELECT COUNT(*) FROM fullstack.student) AS total_students
5  FROM fullstack.student;
6
```

Below the SQL editor is a 'Result Grid' section. It has a 'Filter Rows:' input field, an 'Export:' button, and a 'Wrap Cell Content:' checkbox. The result grid displays the following data:

stu_id	stu_name	total_students
1	Aarav	6
2	Neha	6
3	Rahul	6
4	Priya	6
5	Karan	6
6	Anita	6

On the right side of the interface, there is a vertical toolbar with icons for 'Result Grid', 'Form Editor', and 'Field Types'.

Step6:

```

1  SELECT *
2  FROM fullstack.student
3  WHERE age > (
4      SELECT AVG(age)
5      FROM fullstack.student
6  );
7

```

stu_id	stu_name	email	age	city	adm_date	mentor_id
3	Rahul	NULL	22	Delhi	2022-01-12	1
5	Karan	karan@gmail.com	23	Pune	2021-11-01	2

Step7:

```
1 CREATE TABLE `fullstack`.`senior_student` (  
2   `stu_id` INT NOT NULL,  
3   `stu_name` VARCHAR(45) NOT NULL,  
4   `age` INT NULL);  
5
```

Step8:

The screenshot shows a database management interface with a SQL editor and a results pane. The SQL editor contains the following query:

```
1 INSERT INTO senior_students (stu_id, stu_name, age)  
2 SELECT stu_id, stu_name, age  
3 FROM fullstack.student  
4 WHERE age > (  
5   SELECT AVG(age)  
6   FROM fullstack.student  
7 );  
8
```

The results pane displays a table with the following data:

stu_id	stu_name	age
3	Rahul	22
5	Karan	23

The interface includes a toolbar with various icons, a tab bar with tabs for 'student', 'senior_student - Table', and 'senior_student', and a sidebar with options for 'Result Grid', 'Form Editor', and 'Field Types'.
